

NOTIFICATION

General Ophthalmology Consultant Positions Available in Various Departments at Sankar Foundation Eye Hospital.

Sankar Foundation Eye Hospital, Visakhapatnam, Andhra Pradesh invites applications for general ophthalmology consultants. The selected candidates will be inducted as adjunct consultants in general ophthalmology. They will have the scope to advance their careers by training in a specialized area of ophthalmology.

This is a worthwhile prospect for young ophthalmologists at the cusp of their careers keen on learning and practicing an ophthalmology specialty while not certified in it. The selected candidates will be employed in the general ophthalmology department and can choose to train in any of the specialties like:

Glaucoma, Cornea, Retina, Pediatric Ophthalmology & Orbit Oculoplasty

The candidate will earn a credit of one year in the specialty being trained in upon finishing 2 years of service as adjunct consultant. The salary and increment will be the same as consultants in general ophthalmology positions.

After completing two years of service as an adjunct consultant, the consultant will earn a credit score of one year. The salary and increment will be on par with consultants in general ophthalmology positions.

The selected candidate be trained under a structured training programme and spend around 50% of the time in specialty clinics and qualified for 1 year certificate in a specialty upon completion of 2 years it is [it is noteworthy that AIOS FICO Fellows exam board mandates a one-year specialty experience certificate] After the certification, the candidate can continue further training and follow a career in the selected speciality.

As part of the training, the candidate will collaborate with a group of professionals and benefit from their advice and evaluation. S/he will also participate in the patient care and research projects of the department.

To apply, send in your CV and a motivation letter to us by 30th May 2024.
We will invite the shortlisted candidates for an interview and test in June 2024
